

Our mission

Base of our success are satisfied customers and we are inspired to fulfil their requirements.

Our scope is to offer reliable and low priced products which fulfil the highest conditions of technology, safety and environmental protection with correct supply and service.

We intend to establish an open and cooperative partnership relation with our suppliers, in order to assure mutual satisfaction of both parties. We attend especially to our personal development within the company and we are proud of our extremely low fluctuation rate in the last decade. We intend to make our product, staff and service perfect.
